Advance Python & SQL- [Url](#)

CAREER OBJECTIVE

Aspiring Web Developer and fresher with a strong foundation in HTML, CSS, JavaScript, and ReactJS. Passionate about building responsive and user-friendly web applications. Eager to contribute to a dynamic team and grow as a professional in web development.

PROJECT

Project - 1

Weather App

(HTML, CSS, JavaScript, ReactJS, API)

- Developed a dynamic Weather App using ReactJS, HTML, CSS, and JavaScript, enhancing user experience with a responsive and intuitive interface.
- Integrated Weather APIs to fetch real-time weather data, providing accurate and up-to-date information to users.
- Implemented user-friendly features such as location-based weather updates and a search functionality for different cities.
- Utilized React's component-based architecture and asynchronous JavaScript (AJAX) to handle API requests and updates seamlessly, ensuring a smooth and efficient user experience.

Project - 2

Face Recognition Based Attendance System

(HTML, CSS, JavaScript, Python, MySQL)

- Developed a web-based attendance system using face recognition with OpenCV.
- Built a responsive frontend with HTML, CSS, and JavaScript for user interaction.
- Managed data using CSV, NumPy, and Pandas, and stored records in a MySQL database.
- Integrated Django for backend functionality, secure registration, and real-time attendance logs.

SOFT SKILLS

1. **Communication:** Effective communication to facilitate collaboration and understanding.
2. **Teamwork:** Strong team player with a history of successful group contributions.
3. **Adaptability:** Quick to adjust and thrive in changing environments.
